Dear Sir / madam

I would like to register my objection to any alteration of the Real Raw Milk certification and availability to all Austarlian of this extremely health giving natural product.

The time has come for people to be able to have access to natural products for their own health pormotion and desease prevention. Where are the gate keepers elected to serve, to the best for their people, rather than to submit us to corporate and marketing lies. There is scientific evidence to support natural diets of wholesome foods, but I'm sure the Religion of Science would rail an argument to the counter such a wild belief.

Regard

Michael White
