To Whom it May Concern,

I support the cause for legalisation of selling of raw milk.

As a raw milk consumer I desire:

Easy access to clean, unprocessed milk from local dairies with healthy cattle that are grass fed only

FSANZ to reassess outdated science and non-science which condemns raw milk as a carrier of pathogens and consider science based recommendations for consumption of raw milk.

Certification of raw milk which ensures its cleanliness and its healthful properties remain intact

Regulations which require raw milk and raw cheeses to be traded ONLY via localised, cottage industry

Cheers
