**To:** submissions  
**Subject:** submission: for Proposal P1007 - Primary Production and Processing Requirements for Raw Milk

**Follow Up Flag:** Follow up  
**Flag Status:** Blue

I support the move to the legal supply of raw milk - the choice must be available to consumers who can make their own informed decision whether to drink raw, pasteurized, homogenized, full cream, skim, extra dollop etc.

As a teenager I drank raw milk on the farm where I then worked with no ill effects and would like to have the choice again

I understand that submissions close at 6.00 pm today; hence the shortness of this submission.
