Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.

I am in favour of safely produced, natural raw milk.

Nature's way not man's way. Us humans think we can do it better, but we have lost so many of the benefits that natural, safe, raw milk offers us. We can't do it better than God or mother nature... I don't want my food interfered with! Simple, healthy, natural! If we look after our cow's they will look after us.
