**Subject:** Submission: Raw milk legislation

Submission regarding proposal P1007: Primary Production and Processing Requirements for Raw Milk Products.

I support safely produced natural raw milk and milk products, I believe they are superior in nutrition and as California (USA) has proven, not linked to any health concerns since consumption began.  
Given the choice between purchasing raw and pasturised I would choose safely produced raw milk and milk products.  
Please give the public the choice.  
Thank you.

Yours Sincerely  
Simon Hopper
