Re Submission re Proposal P1007: Primary Production and Processing Requirements for Raw Milk Products.

I want the sale of raw milk legalised. I cannot drink pasteurised milk due to the fact it doesn't suit my body. Stomach cramps etc however I find raw milk does not effect me in this way. As a child I and my brothers and parents lived on raw milk till I went to work in the city. I started having tonsil and mucus then stomach problems and it wasn't till I realised that I was drinking pasteurised milk which upset my body. As soon as I returned to raw milk my symptoms settled down but because it is impossible to buy I just don't drink it. I have done my homework and need to be able to have a choice of buying raw milk if I choose.
