Submission re Proposal P1007: Primary Production & Processing Requirements  
for Raw Milk Products

My name is Elisabeth Needs and I would like to request that raw milk be made legal to buy and consume for all Australians. I have been blessed to be able to drink raw milk in the past and feel that it is a far superior product for myself and my family . I do realize that some people fear that the product is not as clean but I have had more trouble with pasteurized milk going off than raw milk. I feel that there is a chance that people may be getting raw milk and consuming it already and it is a lot better to have it regulated and watched than it being hidden from the FSANZ , we need national consistency and for it to be legally consumed.

Thank you for your consideration
