To Whom it May Concern

I'm writing in regards to Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.

As a mother, I would urge you to allow the legal sale and production of Raw milk and Raw cheese in Australia. I have had access to Raw milk, and the improvement in the health of my children who suffered allergies and asthma has been remarkable. We have suffered less from the illnesses that have effected our community and our children are healthy and strong.

I believe the perception of the risks of raw milk is misinformed given the numerous studies on raw milk available, and urge you to revise the current legislation.

Kind regards
