SUBMISSION OF Jane Duncan RELATING TO:
Proposal P1007-Primary Production & Processing Requirements For Raw Milk Products.

I am writing in favour of raw milk products. I consume raw milk on a daily basis & would hate to see this god given right taken away from me. My mother & sister have both had breast cancer & I make myself aware of things to avoid in my diet & homogenized milk is one of them. You only need to google homogenized milk & breast cancer & a mountain of information comes up. Raw milk is mother nature's food, as she intended, let the informed consumer have the right to consume raw milk.
