Dear s 22

Thank you for your time just now.

As discussed on the telephone, attached is a copy of the laboratory results that NSW DPI Biosecurity & Food Safety received late this afternoon.

The results indicate significant contamination of your farm with Salmonella Enteritidis. You need to activate your recall plan. Information on how to conduct a food record is available at <http://www.foodstandards.gov.au/industry/foodrecalls/Pages/default.aspx>

The contact number for Food Standards Australia New Zealand is s 22

In the meantime if you have any questions please do not hesitate to contact me.

Regards,
