| Submission Text: | <p>I would like a very clear transparent labelling about GE food, wether there is anything visible or left in the final product or not.</p> <p>Even if it has been fed with GE food I would like to have the choice of opting out of this type of food, which I am in some ways, already, by producing, my meet, veggies, honey, skin care product on our 1 acre land. Thanks. Corinne</p> |
