Subject: SUBMISSION P1017 – Criteria for Listeria Monocytogenes – Microbiological limits for foods

P1017 – CRITERIA FOR LISTERIA MONOCYTOGENES – MICROBIOLOGICAL LIMITS FOR FOODS

Coles have assessed the P1017 proposal along with independent expert advisors and are supportive of FSANZ new position on Listeria.

This proposal will bring Australia food production in line with Codex limits for Listeria monocytogenes and will give industry clearer direction on acceptable limits in Ready to Eat foods which would be a positive development for food safety.

Should you require any additional feedback, please contact me via the details below.

Kind regards,
