Dear Sirs/Mesdames,

I am in favour of

Safely produced, natural raw milk & raw
milk cheeses being produced in Australia

This is my submission regarding
Proposal P1007 Primary Production and
Processing Requirements for Raw Milk Products.

We are a nation of quality dairy
~~herd~~ production which could be
further enhanced by gaining international
recognition of our small cheeses
producers. If ^{the cheese makers} they are allowed to
compete in the international market
by producing raw milk cheeses ~~the~~ ^{the}
both the consumer and the ~~eco~~ ^{eco} ~~ne~~ ^{ne}
of Australia could benefit

Yours sincerely Mrs. Robyn L.
