

**SUBMISSION OF TRACEY LEE NICHOLSON RELATING TO: Proposal  
P1007-Primary  
Production & Processing Requirements For Raw Milk Products.**

I drink raw milk and have found great benefits to myself and my family's health. I strongly believe that we have the human

right to be able to buy raw milk and raw milk products if we choose to.

Real, raw, unpasteurised milk was essential to the health of all traditional cultures studied by Dr Weston A Price in his 1930s travels. ([www.westonaprice.org](http://www.westonaprice.org))

I respectfully ask FSANZ to change the law to Real Raw Milk Certification so it is available to all Australians.

Thank-you

Kind Regards

Tracey Nicholson
