

**Draft 19 April**

## **Workshop on New Breeding Technologies (NBT)**

Rydges Capital Hill, **Canberra ACT**

19 June 2013

### **Objectives:**

1. To review the current status of research and what is in the pipeline so as to start a discussion regarding their regulatory status and achieve harmonization in how they may be regulated;
2. What are the data requirements for regulated NBTs;
3. Do any of the new techniques pose real or unique concerns for risk/safety assessment, and if not should the techniques be regulated;
4. Share examples where competent authorities decide how to deal with products from a specific NBT, results of risk assessments related to NBTs conducted by other authorities;

9.30	<i>Tea/coffee</i>
10.00	<div></div> Introduction and welcome
10.05 30m	<div></div> La Trobe University Review of NBT internationally, regulatory trends internationally, including EU NBT forum feedback
10.35 15m	CSIRO <div></div> CSIRO research into NBT
10.50 15m	<div></div> New England University Animal
11.05	<i>Morning Tea</i>
11.25 15m	<div></div> Dow research into NBT
11.40 15m	Tbc Bayer research into NBT
11.55 20 m	<div></div> FSANZ
12.15 20 m	<div></div> OGTR
12.35	<i>Lunch</i>
13.30 15m	<div></div> Regulatory costs
13.45	<i>Discussion</i>
15.00	<i>Close</i>
