Thanks

As I understand we are interested in hearing about other legislative cover then it is really more appropriate for MfE to talk than MPI. MPI sit on the inter-governmental NBT group that I attend, but it isn't Andy's area. However if MPI have spoken to MfE they will have the update. Just probably worth letting Andy know that Mariska is attending and could cover this and leave it to him.

Thanks Leigh. Mariska said she would attend but is also going to talk to S22 to see if anyone else ought to attend.

Andrew Pearson said he was going to talk to their policy people, who have been liaising with EPA and MfE re the talk – but maybe I could point him in the direction of Mariska – what do you think?

I met with Tim Strabala from EPA today to get an update before the workshop next week. This was arranged before I knew that MfE are attending. Tim was not aware that MfE were attending, but did think they should speak to the item on harmonization and NZ activities, not Andy. In any case he will also ask a legal colleague (S22) who has dealt with the NBT issue through the High Court process to attend. Who from MfE is attending?

Today the NZ parliament are considering the amendments to the not-HSNO regs clarifying what is a GMO – it is all encompassing....

Hi Leigh

Just letting you know that there are likely to be a few external attendees from MPI and MfE linking into the workshop from the wellington office. Just waiting for confirmation of names. The room in Wellington has already been organised of course, but am just wondering about what other arrangements will be required – presumably we will need to at least provide refreshments of some kind but should we also provide lunch or do we wait and see how many first before deciding?

Lisa.
