Subject: Submission on Rec 34: Review required labelling of irradiated foods

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Sir/Madam,

My submission is extremely brief.

It is in the interests of full transparency and keeping consumers fully informed that labels should disclose the full and true facts regarding both the ingredients and processes involved in producing a food being sold.

As such if a food has been irradiated then this fact should be disclosed on the label in a clear and obvious manner. To do otherwise would be failing to keep consumers informed of facts.

Yours sincerely
Craig Linn
