Subject:

Submission on A1193 Irradiation of all fresh fruit and vegetables

Categories:

[REDACTED]

I have only just learnt of The Queensland Government plans to mandate that all fresh fruits and vegetables be irradiated!

As a consumer of such food I wish to express my concern. I am a great believer in the health benefits of fruits and vegetables and for some years I have supported a health program, encouraging people to eat such products. I wish to object to this proposal. I believe that as Australian citizens, we should have the freedom to choose what we eat. It seems wrong to impose irradiated food on our population.

Yours sincerely,
