Email Address:	[REDACTED]
Submission Text:	<p>This is an underhanded way of introducing legislation which affects everyone without the proper scrutiny of parliament.</p> <p>Our food is largely safe and clean. There is no need for wholesale irradiation of Australian fruits and vegetables. If areas have problems with fruit fly then the government should fund a science solution to that problem. There are</p>

enough poisons entering our food systems without adding
this one.
