**Subject:** Amend legislation to permit dogs in outdoor areas of cafes and outdoor dining areas

**Categories:** [REDACTED]

This submission is in support of the proposed change to the legislation to allow dogs in outdoor dining areas. I have a home on the Sunshine Coast and travel with my dogs several times a year to holiday in the area. In Sydney we live in North Sydney one of the most highly urbanised areas of Australia. Dogs are allowed off leash in all parks and reserves and at all outdoor dining areas. Dogs are allowed in all outdoor areas throughout Sydney.

It is time that over 50% of the population and rate payers are equally represented in how legislation is framed and interpreted. Please make the change to allow dogs under control in outdoor dining areas. This will not only increase business for local operators, but it creates a greater sense of community and involvement at many levels.

Kind regards  
Christine Marsden
