**Subject:** Proposal P1018 Companion dogs in outdoor dining areas  
**Categories:** Blue Category

Dear Sir,

[REDACTED]

I should like to support your proposed relaxation of restrictions regarding dogs in eating areas.

The benefits to society of dogs is well documented and this extra facility can only add to this.  
it is likely to increase the frequency of people using cafes thus contributing to the profitability of venues.  
To see a dog lying peacefully at its owners feet is an attraction to others to go in to that venue.

I could give many more reasons but the above should be sufficient.

Tony Walch
