Subject: Submission on P1021

One comment only –

[7.4]

omitting from the Table to clause 16

"Bromelain EC 3.4.22.4	Pineapple stem (<i>Ananas comosus</i>)"
---------------------------	---

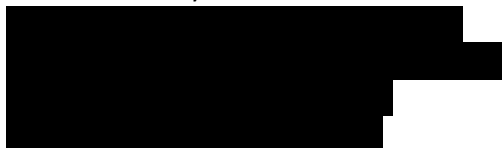

and substituting

"Stem bromelain EC 3.4.22.32	Pineapple stem (<i>Ananas comosus</i>)
Fruit bromelain EC 3.4.22.32	Pineapple fruit (<i>Ananas comosus</i>)"

There appears to be an error in the EC Number for Fruit Bromelain – page 3 of the Call for Submissions states that the EC number for Fruit Bromelain is EC 3.4.22.33, and not the same as the EC number for Stem Bromelain as listed above. As a botanical name shouldn't '*Ananas comosus*' appear in italics - '*Ananas comosus*'?.

Cheers, David
