Dear Standards Management Officer

RE: Safe Food Production Queensland Submission on Proposal P1025 – Code Revision

I refer to FSANZ's 2nd Call for submissions on *Proposal P1025: Code Revision*.

With reference to the previous submission by Safe Food Production Queensland (SFPQ), dated 27 September 2013, I wish to iterate that SFPQ would prefer that the resources of FSANZ, and those of regulatory agencies, be used to address the numerous specific matters that have previously been raised by food regulatory agencies. These matters include longstanding definitional issues, many of which are not addressed by the reforms, and creating greater synergies across all elements of the Code, including reviewing Chapters 3 and 4.

Should you require any further information in relation to this matter, please do not hesitate to contact myself on telephone number (07) 3253 9811 or at ppond@safefood.qld.gov.au.

Regards

Phil Pond
